

RIFTON SUPINE STANDER

The Rifton Supine Stander uses a hand crank to tilt the table from horizontal to vertical and stops at the angle required. For those with sufficient head control, the top section (36 cm) of the table can be folded away. Armrests are angle adjustable for user comfort and for fitting of a tray. The base has been redesigned to improve stability and allow transfer from hoist. **THE LARGE AE41 IS HEIGHT ADJUSTABLE FROM 56 CM TO 76 CM, MAKING IT POSSIBLE FOR WHEEL CHAIR OR SEATING TRANSFERS.**

The height adjustable footboard also folds flat for storage.

Comes standard with padding, hip, chest and leg straps, a pair of lateral supports, a pair of headrests and double locking castors.
