

MINOR PRONE STANDER

Model No. : **AMPS-E Electric Tilt**
AMPS-G Gas Tilt

The Minor Prone Stander is made from light weight aluminium alloy. This standing frame helps develop a child's independence, dignity and self esteem while at the same time promoting muscle and bone development for children with conditions like cerebral palsy, paraplegia and hemiplegia.

Main Features:

- Components adjust along the centre column to suit individual user.
- Horizontal top for easier transfer and positioning.
- Electric or Gas operated tilt system.
- Split footrests.
- Four lockable swivel castors.
- Removable therapy table.
- Folds for easy storage.
