

GYM, TOYS & POSITIONING

FOAM SHAPES

FAS provides an extensive range of Australian made foam shapes for your selection. They are made of the finest quality foam covered with a water resistant, PVC coated polyester material featuring a built-in bacteria inhibitor. The material is also flame retardant as set out in Australian Standard AS 1530.2.3 and incorporates maximum UV absorbers to protect against harmful sun rays. It remains soft and durable and is easily cleaned with soap and water. The material will not harden, crack or peel.
