

## REHATRI TRICYCLES RANGE

### REHATRI FOOT TRIKE & HAND TRIKE

Have you ever envisioned your child being able to enjoy the pleasures of cycling but who up until now were unable to due to a disability? Introducing the line of Rehatri tricycles designed to bring countless hours of joy and excitement to children with cerebral palsy. Combining the physical benefits of leg training, balance, fitness and endurance along with healthy time spent in the great outdoors, these tricycles are sure to be a hit with the kids. For CP children from ages 3 up to adult Rehatri trikes are remarkable in that they come in a range of different variations to suit your child's needs.

**Warning!**

These tricycles are designed for use on level ground and on pavement only. User should be under competent supervision at all time.

12" hand & foot trike with backrest

16" foot trike with loop handle, push bar, backrest & lateral supports, multi-adj seat and paddle combination.

### REHATRI RECUMBENT TRICYCLE

With adjustable seat and seat back the Rehatri Recumbent Tricycle is built for the tricyclist who enjoys exercising while in a recumbent position. This position ensures maximum leg workout and the low centre of gravity thanks to the 20 inch wheels and the comfortable seat providing sufficient balance for persons who may struggle to stay upright while in a seated position.

Suitable for adults of all sizes with the stem height and the angle of the handlebar easily adjustable, the Rehatri Recumbent tricycle is available in stylish electric green.
