

## CONVAID CUDDLEBUG EARLY INTERVENTION WHEELCHAIR

- TILT IN SPACE, RECLINE AND HI-LO ADJUSTMENT

Model.: **SC-CB01** Small size (approx. 0 to 18 months)  
**SC-CB02** Large size (approx. up to 4 years)

The CuddleBug Early Intervention wheelchair by Convaid has been designed with a host of standard features. CuddleBug has a depth adjustable seat with foam hip inserts, height adjustable armrest's, removable and washable seat covers with a breathable padded seat insert, one-piece angle adjustable elevating footplates, headrest cover & calf panel; silver powder coated frame, under seat storage tray, swivelling 6 inch front wheels and 8 inch solid rear wheels (optional 11 inch solid or pneumatic) with toggle type wheel locks.

The Cuddlebug's tilt-in-space mobility base has 5 to 30 degree of adjustable tilt and 90 to 160 degree of adjustable recline. The mobility base has a height adjustable range of 7 inches (18 cm) without the use of tools and with the child seated, catering for different activities such as feeding and play.

The Cuddlebug's base folds compactly without the need to remove the seating module; it can be easily transported in the boot of a typical family car.

The Transit Model comes standard with 3 point belt with depth adjustable crotch straps, adjustable contoured headrest, anterior trunk support & foot positioners.

### Standard Features:
