

OTTO BOCK KIMBA SPRING REHAB BUGGY

Kimba Spring is a beautiful rehab buggy system comprising of a multi-functional seating unit which can be fitted onto an outdoor base or an indoor base. The outdoor base has spring shock absorber which dampens shocks and impacts to provide a smooth and comfortable ride.

OUTDOOR MOBILITY BASES

- Size 1, rigidly mounted or swivelling front wheels.
- Size 2, swivelling front wheels.
- Adjustable damping of the seat's spring system (3 possible settings).
- Attractive design - oversized aluminum tubes.
- Seat tilt adjustment at the pushbar.
- Compact folding mechanism with automatic folding guards.
- Ergonomic and height adjustable pushbar.
- Comes with a folding storage bag.

INDOOR BASE

(Hi-Lo or Spider base)

- Height adjustable.
- Spider Base has tilt-in-space.
- Hi-Lo Base has telescoping wheelbase.
- High manoeuvrability due to twinroller casters.

Spider Base.

MULTIFUNCTIONAL SEATING UNIT

- Continuous adjustment of seat depth, seat width, back height and lower leg length.
- Lateral support pads, adjustable hip pads.
- Seat tilt, back angle, and footrest angle are independently adjustable.
- Footrest with "anatomic" knee angle.
- Angle adjustable footrest (optional).
- Seating unit can be positioned facing forward or in reverse direction with automatic quick-lock.
- Vast range of accessories, e.g. headrests, thoracic supports, different strap systems, slipsacks and canopies.
