OTTO BOCK KODIAK WHEELCHAIR BASE

(Tilt-in-space mobile seating base)

Model No: **SOB-KODIAK**

This all new Otto Bock wheelchair base is built with innovative smooth, weight-shifting tilting technology. The mobility base allows for a large range of angles from -55 to +5 degrees. With a -55 degree tilt, this wheelchair base provides the body greater support and relief from pressure areas. Use with wide range of seating system and components in the market including Otto Bock, Nu-tech, Sunrise, and many others, Kodiak is an ideal base to build a functional adaptive and supportive wheelchair to suit the user's needs.

Features include:

- New tilting system
- Easily adjustable width and depth.
- Adjustable tilting seat
- Easy to manoeuvre.
- Suitable for transporting in vehicles.
