

SEATING & TRANSPORT EQUIPMENT

TREC TRANSPORT SUPPORTER

This Australian designed and made product offers lateral support so that the user can sit in the car in a better upright position. It is not designed to withstand crash forces, hence it must be used in conjunction with the existing seat belt. Comes in two sizes.

Features:

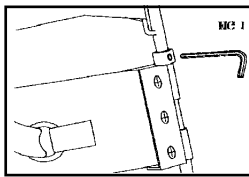

- Easily fixes to car seat with portable seat mount strap.
- Two height adjustable lateral pads. One of the lateral pads can be swung-away for easy transfer.
- Cross straps and crotch strap are secured with a one-button release buckle.
- Optional Sheepskin sleeve for adding comfort, Headrest for additional support.

Transport Supporter provides lateral support to the user in the car.

- A - Height Adjustable Lateral Pads
- B - Three-point hip belt with buckle
- C - Original vehicle seat belt must be used with TREC Transport Supporter
