

BLUE WAVE TOILETING SYSTEM

Another modular and versatile design from Rifton! This toileting system can be used in the following ways:

- **ON THE TOILET WITH OR WITHOUT BACK SUPPORT.**
- **OVER THE TOILET**
- **FREE STANDING MOBILE COMMODE.**
- **SHOWER CHAIR WITH ANGLED BACK SUPPORT.**

The system is made of strong moulded plastic which is hygienic, easy to clean and sturdy. All hardware is stainless steel hence is rust free. The entire system has minimum adjustments and quick access. Children can go from "most to least" by removing supports as the child progresses. All adjustments are tool free.

BLUE WAVE TOILET SEAT

Used as an over the toilet seating system, it provides essential support when needed. It is easy to adjust and remove from toilet.

Features:

- Fits any institutional, school or home toilet.
- The contoured seat is ergonomically designed to centre child's hip on the seat. The soft deflector and seat cover is removable for cleaning.
- Armrests help child to support his weight. They can be easily removed for open access.
- Hip straps add security. Chest straps come with Backrest.
- Mounting bar allows the seat to be taken on or off the toilet easily.
- Backrest can be adjusted to angles at 85°, 95° or 105°. It can be folded flat for storage.
- High backrest comes with head support.
- Two seat depth settings. Quick release mechanism allows easy change of back and/or seat depth for different children.
- Anterior Support allows child to lean forward while sitting.
- Abductor provides comfortable knee abduction.
